Nassar | nassar | Portfolio

Education

B.Sc. Computer and Systems Engineering | Ain Shams University **2020–2025**
GPA: **3.5 / 4** (**18th Rank**, Honors Degree)

Graduation Project — AstroCloud **2025**
Microsoft Sponsored
Built Egypt's first Netlify-style hosting platform enabling static and dynamic deployments with admin control panel.
Live Platform | Admin Panel | Demo Video

Work Experience

Full Stack Engineer | MerkWave **2025 – Present**

- Developed and launched the official merkwave.com landing website using modern frontend technologies.
- Designed and implemented multiple ERP systems for different business domains.

Code Instructor — Tech Learning Academy **2025 – Present**

- Taught problem solving and data structures to college students.
- Delivered programming courses in Python, C++, and C#.
- Trained students for competitive programming and CPC-style contests.
- Mentored students in debugging and algorithmic thinking.

IT Intern — ElSewedy Electric **Summer 2024**

- Gained hands-on experience in networking fundamentals.
- Worked with Git workflows and Agile methodologies.
- Practiced Bash scripting for automation tasks.

AZM Squad Intern **Summer 2025**

- Contributed to full-stack development across frontend and backend systems.
- made udemy app from scratch.

Semi Colon Student Activity — C++ Instructor **Summer 2023**

- Taught C++ fundamentals, OOP concepts, and problem solving to undergraduate students.
- Prepared practice problems and hands-on sessions to reinforce algorithmic thinking.
- Mentored students in debugging techniques and competitive programming basics.

Technical Skills

- **Backend & Architecture**
  - C#, .NET, Node.js, Express, NestJS
  - Microservices Architecture, Clean Architecture, SOLID Principles
  - RESTful APIs, API Security, JWT Authentication
  - Repository Pattern, Unit of Work, AutoMapper, Fluent Validation
- **Frontend**
  - React, Next.js, TypeScript
  - React Router, Redux, Jotai, Tailwind CSS
- **Databases & Caching**
  - SQL Server, PostgreSQL, MySQL
  - MongoDB, Redis
  - Database Optimization, Indexing, Query Performance
- **Messaging & Async Systems**

  - RabbitMQ, Kafka (basic)
  - Asynchronous Processing
- **Cloud & DevOps**
  - Docker, Kubernetes, Azure, AKS
  - Azure DevOps Pipelines, Container Orchestration
  - Bash Scripting
- **UI/UX & 3D**
  - Figma, Blender
  - Three.js, React Three Fiber
- **Tools & Practices**
  - Git, Agile Methodologies, CI/CD Concepts
  - Unit Testing, Integration Testing, Code Reviews
- **Programming Languages**
  - Python, C#, JavaScript, C++, Java
  - HTML, CSS
  - Go (basic)
- **Other**
  - Problem Solving
  - Competitive Programming (CPC), Team Collaboration

Projects

- **E-Commerce Microservices System**
  - Microservices with PostgreSQL, MongoDB, MySQL, Redis caching
  - Async communication via RabbitMQ and HTTP sync services
  - Deployed using Docker, Kubernetes (AKS), and Azure Cloud
  - GitHub Repository
- **MerkWave 3D Portfolio Website**
  - Interactive portfolio using Next.js and Three.js 3D models
  - Optimized UI/UX for modern web presentation
  - Live Website
- **E-Commerce Platform (Onion Architecture)**
  - Implemented authentication, Redis caching, and Specification Pattern for dynamic querying
  - Designed scalable backend using .NET best practices
  - GitHub Repository
- **Gym Management System**
  - Fingerprint attendance integration across gym branches
  - Subscription validation, financial reports, performance analytics
  - GitHub Repository
- **Synfig Open Source Contribution**
  - Fixed UI functionality issues in Synfig open-source project
  - Added customizable layer button improving artist workflow
  - PR Link
